Endeavour launch is on schedule for Monday

The STS-113 launch is still tentatively set for Monday. The source of an oxygen leak on the Space Shuttle Endeavour has been identified as a flexible hose near the forward bulkhead of the cargo bay. It can be repaired without removing the P1 truss segment to be delivered to the International Space Station. There is concern of possible damage to the Shuttle's robot arm, which occurred when a work platform bumped the arm and tore a thermal blanket.

Marshall Association luncheon at 11:30 a.m. Thursday. See 'Inside Marshall'

MARS Basketball Club seeks players for 'over 40' league. For details, call Bill Boglio at 544-3806

2002 health benefits open season continues

The Federal Employees Health Benefits open season runs through Dec. 9. Any eligible employee who is not enrolled may do so. Those enrolled may change their plan options. Guides and brochures are available from the Office of Personnel Management at <http://www.opm.gov/insure>. Employees are encouraged to make open season changes electronically through Employee Express at <http://www.employeeexpress.gov/emain.htm>. Forms also are available from the Human Resources Office in Bldg. 4200, Room 324.
